Subject: RE: CPRA request

There is an error in the below message. If you insert the word “not” between the words “will” and “further” in the last sentence the message will be correct.

Subject: Re: CPRA request

A board member cannot successfully make a request for public records from the entity he is an officer for because a board member cannot sue the district to enforce the request. Doing so would be a breach of fiduciary duty. If you wish to resign you can make that request. Otherwise the district will respond further to your request
