To "Jason PCWd"<jdf-pcwd@sbcglobal.net>

Cc [redacted]

To: General Manager **CC:** District Counsel, Board of Directors

Subject: CPRA Request – Monitoring, Outage, PG&E, and Backup-Power Records (All Wells / All Facilities)

This is a request under the California Public Records Act, Government Code §6250 et seq.

This request applies to **all District wells, pump stations, booster stations, and water-system facilities**, regardless of internal numbering or naming conventions.
This includes **all PG&E accounts, meters, service points, and monitoring systems** associated with any District water-system facility.

As an example of already-public disclosure, the District's **February 2026 bill listing** includes a breakout of PG&E charges for "Wells #5–9" totaling **$19,961.24**, demonstrating that the District does track and disclose well-specific PG&E usage.
Because this category of information has already been publicly released, it is **not exempt** under Gov. Code §6254(aa).

Accordingly, I request the following records For **all months and all years available from 2020 till present**:

1. PG&E Documentation (All Wells / All Facilities)

For **all months and all years available from 2020 till present** please provide:

- all PG&E bills
- all PG&E meter numbers
- all PG&E account numbers
- all PG&E service-point identifiers
- all PG&E load profiles (kWh, kW, TOU data)
- all PG&E outage notifications
- all PG&E demand charges
- all PG&E meter-read data
- all PG&E billing summaries or internal accounting breakouts

2. Monitoring & Operational Records (All Wells / All Facilities)

Please provide:

- SCADA alarm logs
- pump runtime logs
- outage logs
- telemetry data
- well performance logs
- flow and pressure data
- monitoring system maintenance records
- any monitoring system configuration summaries (non-security portions)
- any documents showing monitoring gaps or failures

3. Backup Power & Emergency Preparedness (All Wells / All Facilities)

Please provide:

- generator feasibility studies
- emergency power assessments
- outage response plans
- continuity of operations plans
- vulnerability assessments (non-security portions)
- consultant reports
- internal memos
- emails discussing backup power
- cost estimates
- staff reports
- board packets containing emergency-power information

4. Records Related to Statements Made in Open Session

Please provide:

- any records, memos, emails, analyses, or internal communications supporting the statement made in open session that the District "does not have backup anything"
- any documents evaluating or discussing backup-power needs, deficiencies, or risks
- any documents evaluating or discussing monitoring deficiencies or risks

Format & Delivery

Electronic copies (PDF or native format) are preferred.
If any portion of a record is withheld, please cite the specific CPRA exemption(s) relied upon and provide all non-exempt portions.

Thank you.
